Thursday's program was a well balanced one and enjoyed to the fullest by the big crowd. The feature was the walking ring for mares, in which about a dozen entries contested. This was won by Deputy Internal Revenue Collector Rowan Saufley with his cracking good black mare. James B. Leavell, of Bry-2nd. ants won the red tie with a mare belonging to B. F. Rankin. he complete list of Thursday's awards are 2nd. as follows:

Wednesday's program was a splendid one and notwithstanding the in-auspicious start in the morning, quite a number went out. The stock show was very good, competition being very keen in many of the rings. 2nd. A great deal of interest is attaching to the show of Red Berkshire hogs, almost every breeder of this popular strain having representatives here. 2nd. Wednesday was occupied with judging of herds and individuals. Some splendid specimens of the porcine family are on exhibition, and the hog 2nd. tent is quite a center of attraction. The colt rings are very good, the stake being won by T. A. Brent with his slashing filly by Carroll Bailey's Rowland Peavinc and out of a Bourbon King mare, taking the blue in a field of nine entries, with Rowan Saufley's filly by Ashland Brook, second. This filly had previously won the blue in the suckling filly ring, and is a beauty.

Prof. J. J. Hooper, head of the Department of Animal Husbandry of the Experiment Station at State University, Lexington, came over especially to judge the milk cow ring. In this ring the milk is drawn from the cow on the grounds, and is test- \$15 ed by the government expert for butter fat and other desirable ingred-Rowan Saufley won in this ring, with a splendid cow with J. One Hobo Was Killed

Another Injured and Three More

Buried In Wreck Near McKinney.

One "hobo" was killed, one badly injured and three others are said to be buricd beneath the wreckage, and 22 freight cars and their contents arc piled up in an indiscriminate mass, as the result of a very bad freight train wreck which occurred in the Cincinnati Southern railroad just south of McKinney, and at a turn north of South Fork about half past two o'clock Monday afternoon. Just what caused the wreck has not been ascertained as yet and may not be fully learned for the wreckage is piled almost sky high. The train was No. 52 and was running north at a rapid rate of speed when the crash came and the heavily laden cars piled one on top of the other in a hurry. Wrecking crews are doing everything in their power to clear up the wreck but traffic will be delayed for some time on account

A dead tramp was taken from the wreckage, and one very badly hurt. This man said that there were five of his tribe on the train, beating their way north, and the bodies of the other three are supposed to be under the wreckage as they had not been found up to Thursday morning. Most of the cars were loaded with umber, fruit, and merchandise. There were several live stock cars on the train but so far as known no live

The definition of Socialism as given by the American Year Book Cyclopedia and Atlas is as follows: No word hasbeen more abused and misunderstood than the word "Socialist." The Socialist is not an anarchist; the two are opposed in theory and practise. The Socialist does not propose to destroy the family, abolish religion or divide up property nor does seek to carry out his ideas by riot and bloodshed. In a single phrase, Socialism means means public ownership of the means of production and working class control of the government, a chance to work for all who will, and to all workers the full value of their product.
